- Annual Fire Safety Report for On-campus Housing ..................................... 13
- Campus and Downtown Rochester Map ....................................................... 14
The University of Minnesota Rochester (UMR) encourages all students, university employees, and visitors to be aware of safety policies and procedures on campus. To promote personal safety we encourage them to take action to prevent and to report illegal and inappropriate activities. Parts of the following information were taken from the University of Minnesota website for campus safety and security.

**Reporting and Notification of Criminal Activity**

To report an emergency, dial 911 immediately (crime in progress, bomb threat, medical emergency, suspicious persons or unusual behavior, need help anywhere on or off campus, etc.). Individuals reporting criminal complaints to University employees who wish to file a complaint with the Rochester Police Department will be provided with assistance upon request. Reports may also be made directly to the Rochester Police Department, 101 SE 4th St., Rochester, MN 55904-3761, phone 507-328-6800, or online at the following link: [https://reporting.rochestermn.gov/citizenreporting/reporting.php](https://reporting.rochestermn.gov/citizenreporting/reporting.php) (online report is for non-emergency only).

To report a crime that is not an emergency and is not in progress, please contact any of the following: Associate Vice Chancellor for Finance and Operations, phone 507-258-8009; Facilities and Operations Coordinator, phone 507-258-8217, or any University employee.

UMR works closely with all law enforcement agencies in response to criminal activity. All reports made to UMR employees will be forwarded to the Rochester Police Department. When reports are made to University employees, University administration in conjunction with the Rochester Police Department will decide if a safety threat continues to exist to the campus community. If such a threat continues to exist, UMR will use several methods to attempt to notify students of critical campus security information. These may include using TXT-U, mass e-mail, posting on the UMR website, and campus/classroom notification. Each classroom and conference room at UMR is equipped with a telephone. Many of the classrooms can also be locked down simultaneously in case of an emergency where occupants should remain within the room.

TXT-U is the University of Minnesota's emergency notification text messaging system. It is one of several ways the University system provides emergency information to the UMR community. Students, staff, and faculty with an active Internet ID and University of Minnesota email address have been added to the TXT-U system. However, only those with cell phone numbers included in their University personal information will receive emergency text messages. To learn more about TXT-U, please click on the following link: [http://safe-u.umn.edu/txt-u.html](http://safe-u.umn.edu/txt-u.html).
Being Safe at UMR

Emergencies, disasters, accidents, injuries, and crimes can occur without warning. Being prepared to respond to unexpected emergencies is an individual and an organizational responsibility. Each member of our community has a role in emergency preparation and response. Individuals can help by observing their surroundings, asking about suspicious or questionable behavior, calling for help when safety is an issue and reporting crimes in an accurate and timely manner. Being alert to what is going on around us enhances security, safety, openness, and the accessibility of our campus.

The University, as a public institution, values openness and access. However, "open" should not mean unsafe or dangerous. Propping doors open for convenience, turning a blind eye to strangers, and leaving computers and other valuables in the open can lead to unintended consequences. Campus hours are posted at all entrances to UMR. Elevator access to all UMR buildings is restricted to posted building hours. Entrance during non-scheduled hours requires an elevator key. All employees are provided keys for office access and selected individuals are provided with elevator access keys. UMR spaces at University Square and 318 Commons are also viewed by security cameras that are monitored by central security at the University of Minnesota Twin Cities campus.

UMR does not maintain its own campus police force. However, there are two alternate methods that are used at UMR to provide safety and security: the Student Security Monitor Program and a private, contracted company, Premier Security. Premier Security is responsible for general security, 24 hours per day, seven-days per week at University Square and are on-call for Broadway Hall and 318 Commons. Student Security Monitors are responsible for general security and weekends during the academic year in the 318 Commons building and select evening hours at University Square and Broadway Hall. A duty log is maintained daily by the Student Security Monitor Program and crime reports by Premier Security for on-campus buildings are available at the Facilities and Operations Coordinator’s office by request during normal business hours. Premier Security’s offices are located in the skyway level of Broadway Plaza, 15 1st Street SE, Suite 200, Rochester. The Student Security Monitors provide “eyes and ears reporting” for their assigned areas. They utilize Premier Security as back up and local law enforcement for immediate emergencies. Student Security Monitors do not have the authority to apprehend and arrest. Premier Security staff work closely with local law enforcement and with the state police through the local police. Premier Security staff has the authority to apprehend and arrest individuals involved in illegal acts on campus. Premier Security staff and the Student Security Monitors may also refer University students to the Director of Student Development for minor offenses involving University rules and regulations. In addition to their general presence on the campus, UMR has contracted with Premier Security for safety escort services in the evenings during the academic year. Students, staff, and faculty may utilize this service by calling Premier Security at 507-281-4952. Premier Security contact information is displayed on signs posted in each classroom and conference room. All phones at UMR also have a label prominently displayed with the security service phone number.

Every member of the UMR community needs to help promote personal and community safety. Closing and locking doors, obtaining photo ID cards, and being familiar with building-wide
plans are examples of simple steps that can be taken to ensure a safe U. For additional safety tips from the University of Minnesota Twin Cities police department, please visit this website: http://www1.umn.edu/police/prevention.html.

**Emergency Response and Evacuation**

UMR has instituted Crisis Communications Guidelines to allow the delivery of pertinent messages in an appropriate, efficient manner to the campus community. This document is disseminated to all employees and is placed on a shared UMR computer drive and the employee intranet. **Crisis communications** relate to both emergencies and controversial issues. **Emergencies** include but are not limited to: fires, bomb threats, chemical spills, incidences of on-going violence, (including active shooters), terrorist acts, power outages, tornados, and other natural and man-made disasters. UMR will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless the notification will, in the professional judgment of responsible authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency.

The authority to declare a campus state of emergency rests with the Chancellor or designee. The Chancellor or the designee, working with the appropriate responders, will decide what action must be taken and when. Multiple communication systems and processes make up UMR Alert guidelines. Activation of all or part of the overall warning notification system will be determined by the Chancellor and other designated “activators,” as time permits. When there are immediate life safety considerations, other designated staff may have the authority to implement and activate the UMR Alert. The individuals who may activate the system include the following: Chancellor, Chancellor’s Leadership Team, Chancellor’s staff, Director of Communications, Director of Student Development, Facilities and Operations Coordinator, or others as designated.

The on-scene UMR Incident Commander has the authority to activate all or part of UMR Alert. Five criteria must be considered to determine if activation of UMR Alert is warranted, which communications will be utilized, and who authorizes activation of the system: hazard type, life safety/property protection, urgency, audience, and capabilities/limitations. Periodic testing is critical to ensuring UMR Alert is reliable and effective in reaching our stakeholders. A testing of emergency response and evacuation procedures will be scheduled annually, at a minimum. As noted previously, there are various communications methods available to UMR that will be used for emergency notification. These include weather alert radios, TXT-U, social media, fire alarms, mass e-mail, UMR website home page, information display monitors, campus emergency alert system, and media advisories.

Each classroom, conference room, and reception area contains an evacuation plan directing evacuees to safe areas on campus or to off campus locations dependent on the emergency situation. UMR has also prepared a “Building Emergency Plan” that is posted on the Emergency Preparedness webpage at http://www.r.umn.edu/administration/emergency-preparedness/emergency-plan. This document provides scenario instructions for a number of potential emergencies that students and employees may encounter on campus.
In the event that a situation arises, either on or off campus, that in the judgment of the UMR Chancellor or his designee constitutes an ongoing or continuing threat, a campus-wide timely warning will be issued. The warning will be issued through the college e-mail system, TXT-U to students, faculty and staff and in certain situations, through the campus emergency alert system. Depending on the particular circumstances of the crime, especially in all situations that could pose an immediate threat to the community and individuals, UMR may also post a notice on its website and at various entrances to the campus buildings. Anyone with information warranting a timely warning should report the circumstances to the Chancellor’s office, Student Security Monitors, Premier Security, or other UMR staff/faculty.

Crime Statistics Report

In accordance with the Campus Security Act, UMR publishes this report which includes a three-year statistical history of crime that has occurred on campus, the adjacent public properties, the 3rd Street Parking Ramp and the Civic Center Parking Ramp. It should be noted that the reported crimes may involve individuals not associated with the University. A map is attached as Appendix A that highlights the areas covered by this report. UMR has been at University Square since August 2007, Broadway Hall since August 2009, and 318 Commons since August of 2011. The on-campus space at University Square includes the entire 3rd and 4th floors, elevators, stairwells, and MGear and the Office of Institutional Advancement on the 1st floor. The on-campus space at Broadway Hall includes the entire 4th floor, elevators, and stairwells. The on-campus space at 318 Commons includes the lower level classroom and lab space, the 1st floor Housing Office, hallways, the 2nd floor Faculty Offices and student lounge, stairwells, elevators, and floors 3-8 that include apartments rented by students.

This report includes data for the 2011, 2012, and 2013 calendar years. These statistics are part of the University of Minnesota Rochester’s compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (informally known as the “Clery Act”). More information on the Clery Act can be found at http://clerycenter.org/summary-jeanne-clery-act This information is published annually and made available to all current and prospective students and employees http://www.r.umn.edu/administration/prepared. The Facilities and Operations Coordinator prepares the annual report with crime statistics provided by the Rochester Police Department. Student conduct violation information is provided by Student Development. Additional discussions are held with the Director of Student Development, the Student Security Monitors, and Premier Security to make sure all on-campus crimes are reported.

On March 7, 2013, President Obama signed a bill that strengthened and reauthorized the Violence Against Women Act (VAWA). Included within the Act were amendments to the Clery Act that afford additional rights to campus victims of sexual violence, dating violence, domestic violence, and stalking. Information for these crimes was not collected by UMR prior to 2013, which is indicated by an N/A in the chart below.

The following categories of crimes as defined by the FBI’s Uniform Crime Reporting program are included:
1. Murder/Non-Negligent Manslaughter
2. Negligent Manslaughter
3. Domestic Violence
4. Dating Violence
5. Stalking
6. Aggravated Assault
7. Burglary
8. Robbery
9. Motor Vehicle Theft
10. Arson
11. Sexual Offenses: Forcible and Non-Forcible
12. Liquor Law Violations and/or University disciplinary referrals
13. Drug Law Violations and/or University disciplinary referrals
14. Illegal Weapons Possession and/or University disciplinary referrals
15. Bias motivated (hate) crimes by category of prejudice: race, gender, religion, sexual orientation, ethnicity, and/or disability

The crime statistics for public properties include the Peace Plaza, the Civic Center Parking Ramp, 3rd Street Parking Ramp, the public space immediately adjacent to UMR, Broadway Hall and 318 Commons. There are no off-campus student organizations and UMR does not have any non-campus buildings or property used by students, employees or the public. If the Rochester Police Department concludes that the allegations reported are not substantiated by the facts or the law, no campus crime needs to be disclosed as a statistic (Federal Register, April 29, 1994). The above categories and reported alleged criminal activity do not necessarily constitute an arrest or conviction. They are allegations of wrong-doing.
UMR also reports on hate crimes for the same time periods. The definition of a hate crime for this report is any crime reported in the annual statistics, and any other crime involving bodily injury, that manifests evidence that the victim was intentionally selected because of the victim’s actual or perceived race, gender, religion, sexual orientation, ethnicity, or disability. For 2013 there were no reported hate crimes from the Rochester Police Department.

All UMR building safety and emergency protocols cover 318 Commons, both the academic space (floors lower level through 2) and the residential space (floors 3 through 9). The residential space is secured 24 hours a day. Students are issued key fobs that allow them access to the building and their individual apartments. Separate keys are issued for each bedroom within the apartment. The Student Security Monitors patrol the academic space in 318 Commons on the following schedule: Monday through Thursday from 5:00 p.m. to midnight; Friday from 5:00 p.m. to 1:00 a.m.; Saturday from 10:00 a.m. to 1:00 a.m. and Sunday from 10:00am to midnight. The Student Security Monitors wear shirts that clearly identify them as Student Security and remain approachable and available for student assistance. Throughout each shift, the Student Security Monitors patrol all of the spaces defined as the academic space in 318 Commons and make one to two rounds at Broadway Hall. Online duty logs are updated and maintained daily, and reviewed by the Facilities and Operations Coordinator on a frequent basis.

Drug/Alcohol-Abuse Education Programs

UMR provides a free subscription to the online newsletter Student Health 101 to all students and employees. This publication offers information and resources on a variety of topics which are important to the health of students, including the risks associated with drug and alcohol use and abuse. The March 2013 issue contained an article describing the negative effects of “Study Drugs” like Ritalin and Adderall. College students from around the United States offered input regarding their perception of study drugs. This article also discussed the legal ramifications of someone using them without a proper prescription.

The University of Minnesota offers a webpage devoted to alcohol and chemical health services. This site provides links to additional internal and external resources and further information about drinking responsibly, the effects of alcohol and drugs on the body, and a Party Planning guide. It stresses the importance of removing the focus of alcohol, eating before and during alcohol consumption, and responsible measures a host/hostess can take to ensure the safety of his/her guests. http://www.bhs.umn.edu/east-bank-clinic/alcohol-chemical-health-services.htm

UMR is governed by all University of Minnesota Board of Regents policies. The policy website contains the policies regarding the possession, use, and sale of alcoholic beverages, drug free workplace, and enforcement of these policies and state/federal laws. Each year senior leadership distributes via email information about the University’s compliance with the Drug Free Schools and Communities Act. This email is sent to all employees and students to inform the University community about resources for assistance and policies related to drug and alcohol abuse. The University of Minnesota policy web site is: http://www.fpd.finop.umn.edu/groups/ppd/documents/policy/Drug_Free.cfm
Sexual Predators and Offenders on Campus

Level 3 sex offenders are required by law to keep law enforcement agencies apprised of their current residence, employment and school addresses, as well as any changes to those locations. In addition, several of these offenders have demonstrated by their past behavior that they are part of a group who pose the greatest risk to the public when released. This does not mean that they will commit a new crime, just that they are part of a group of persons who might.

State and federal law requires the University of Minnesota Rochester to advise the University community of the release or residence of such predatory sex offenders in our University community. Accordingly, information on predatory sex offenders who have notified the State of Minnesota that they are attending classes or employed at the University of Minnesota Rochester is available to the University community at the Associate Vice Chancellor for Finance and Operations and Director of Student Development offices. Individuals listed there are not wanted by law enforcement at this time and have served the sentence imposed upon them by the court. The use of this information to threaten, harass, or intimidate such individuals may be a crime and will not be tolerated. Information regarding Level 3 Predatory Offenders is posted on the following website: http://www.doc.state.mn.us/level3/search.asp

Sexual Assault, Domestic Violence, Dating Violence, Relationship Violence and Stalking

Sexual violence is a serious problem on United States college campuses and one of the most under-reported crimes. UMR prohibits the offenses of domestic violence, dating violence, sexual assault and stalking.

UMR uses the University of Minnesota Board of Regents policy definition for domestic violence, dating violence, sexual assault and stalking. These offenses are defined as follows:

**Consent**  Informed, freely and actively given, and mutually understood. If physical force, coercion, intimidation, and/or threats are used, there is no consent. If the victim/survivor is mentally or physically incapacitated or impaired so that the victim/survivor cannot understand the fact, nature or extent of the sexual situation, and the condition was or would be known to a reasonable person, there is no consent. This includes conditions due to alcohol or drug consumption, or being asleep or unconscious.

**Relationship Violence**  Causing physical harm or abuse, and threats of physical harm or abuse, arising out of a personal, intimate relationship. Relationship violence often is a criminal act that can be prosecuted under Minnesota state law, as well as under the Student Conduct Code and employee discipline procedures.

**Sexual Assault**  Actual, attempted or threatened sexual contact with another person without that person's consent. Sexual assault often is a criminal act that can be prosecuted under Minnesota state law, as well as under the Student Conduct Code and employee discipline procedures.

**Stalking**  A course of conduct directed at a specific person that is unwanted, unwelcome, or unreciprocated and that would cause a reasonable person to feel fear.
Bystanders are individuals that witness either an act of violence or the actions that lead up to violence. Bystander intervention is a simple concept: We are all obligated to act when we witness an act of violence or something that contributes to a culture that supports violence.

While we are asking you to do something, we do not encourage you to put yourself or others at risk. Maintain safety at all times and keep in mind that you should proceed with caution to avoid harm to yourself or further exacerbating the situation for the victim. There are several creative and conventional ways that you can intervene, either directly or indirectly, to prevent someone from being hurt. Depending on your personality and the situation, any one of these might be appropriate and it is up to you to determine how to handle it in the safest way possible.

Here are some ideas for ways to intervene:

- Address the potential perpetrator directly - Ask them to stop what they are doing and tell them that it is not acceptable or condoned by you, your peers, your group/organization, or the University.
- Create a distraction to divert the attention of the potential perpetrator, for example: start a conversation about something else, tell them they are needed to assist with something, ask the potential survivor to accompany you away from the setting, etc.
- Enlist the help of a friend or other bystander. Draw their attention to the situation and quickly strategize with them to step in. Ask them to join you in approaching the potential victim or perpetrator or by calling authorities such as the Premier Security or 9-1-1 while you address the parties involved.

UMR is included in the Regents Policy on Sexual Assault, Stalking and Relationship Violence [www.policy.umn.edu/Policies/Operations/Safety/SexualAssault.html](http://www.policy.umn.edu/Policies/Operations/Safety/SexualAssault.html) This policy contains contact information for both on and off campus services for victims. UMR urges anyone who has been sexually assaulted on or off University property to contact the Rochester Police Department immediately at 911 to make a police report and have the case investigated. It is important to file this report quickly to assist in the preservation of evidence. Responding officers will assist in a supportive and non-judgmental manner and forward the case to investigators who will conduct a follow-up investigation and submit the case to the prosecutor’s office if sufficient evidence is collected. To maximize the possibility of a successful investigation and prosecution, the sooner a report is made and physical evidence is collected and preserved, the better. The officers of the Rochester Police Department understand that not all victims are ready or willing to participate in a police investigation. We encourage persons to seek help through campus resources if police assistance is uncomfortable to initiate. Campus staff will also assist students in locating off-campus counseling, mental health, and other services for victims of sex offenses. Although victims are strongly encouraged to report all incidences of sexual violence to the property authorities, it is within the victim’s rights to decline notification.

The University’s procedure for responding to incidents of sexual assault, stalking, and relationship violence can be found at: [http://www.policy.umn.edu/Policies/Operations/Safety/SEXUALASSAULT_PROC01.html](http://www.policy.umn.edu/Policies/Operations/Safety/SEXUALASSAULT_PROC01.html)
The accuser and the accused are entitled to the same opportunities to have others present during an institutional disciplinary proceeding; including the opportunity to be accompanied to any related meeting or proceeding by an advisor of their choice.

A student or employee who reports to UMR that the student or employee has been a victim of a domestic violence, dating violence, sexual assault, or stalking, on or off campus will be provided with an explanation of the victims’ rights and options.

In the case of an alleged sex offense, a request for change of academic situation will be handled by UMR Academic and Student Affairs, depending on the availability of alternate course sections or other means of adjustment of schedules. In the event of a request by a student for assistance in changing his/her living situation either on or off campus following an alleged sex offense, UMR Student Development will work to provide the student with support and advocacy in changing apartments or negotiating with landlord(s) and identifying potential alternative housing.

Procedures for campus disciplinary actions in cases of an alleged sex offense and possible sanctions UMR may impose are included in the “UMR Student Conduct Code” document: http://www.r.umn.edu/sites/r.umn.edu/files/umr_student_conduct_code.pdf.

The rights of victims and UMR’s responsibilities to the victims can be found at: http://www1.umn.edu/aurora/pdf/UMN%20victims%20rights%20policy%202013.pdf.

UMR uses the Student Health 101 Newsletter and other resources to educate students about the prevention of rape and other sex offenses. In the January 2013 issue of Student Health 101, an article titled “Let’s talk sex: 3 steps for keeping it safer” stressed the importance of communication, practicing safe sex, and getting tested. Communicating with your partner while sober, always having protection at the ready, and visiting your healthcare provider on an ongoing basis is key to staying healthy and keeping sex safer for those that choose to engage in sexual activity.

UMR contracts with Talk One2One to provide phone access to a licensed counselor about any issue, topic or challenge. The service is free to students, confidential, and available anytime. In-person counseling sessions with a local mental health provider can also be arranged, free for up to three visits through Talk One2One. If the offense did not take place on campus and the victim is unsure who to contact, UMR staff in Student Development or other administrative offices can assist in making the appropriate contacts. UMR will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the college against the student who is the alleged perpetrator of the crime or offense. UMR will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.

The University requires instructors to contain links or references to University policies in all course syllabi.
While there is no absolute way to prevent becoming a victim of a crime (keeping in mind it is the actions and decisions of the perpetrator that ultimately create a potential victim), there are steps that can be taken to minimize risks. These steps include:

- Do not walk alone at night.
- Attend and leave parties with the same group of people.
- If you leave a social setting, let friends know where you are going.
- Do not leave beverages unattended. Unattended beverages could be drugged.
- If drinking alcohol, know your limits. Be prepared to watch out for friends who may not know their own limits.
- Participate in self-defense/awareness courses.

Campus Security and Crime Prevention

The University of Minnesota Rochester clearly posts information in all classrooms and common areas regarding coverage of UMR by Premier Security and the Student Security Monitor Program. Information on this coverage and the personal safety escort from the academic areas to the parking ramps and bike storage areas during the evening hours can also be found on the UMR webpage at http://www.r.umn.edu/administration/emergency-preparedness/security. New students and employees are provided this information at their orientation to UMR. A monthly newsletter (Raptor Report) is sent via email to all students and employees and also contains information on campus safety and security.

The Student Security Monitors attend initial training for their positions by the owner of Premier Security and refresher training for returning Student Security Monitors. Additional training and guest speakers from law enforcement, the fire department, emergency first aid, etc. are held periodically throughout the year. The RAs also complete an extensive week-long training before the start of fall semester. Additional training is also conducted for RAs throughout the year. Both the Student Security Monitors and the RAs are trained in observing, reporting, and contacting the appropriate authorities in a variety of scenarios. The Guide to Community Living is the protocol that all students who live in residential housing are required to follow. Contained in this guide is information on safety, security, and regulations pertaining to crimes, behavior, conduct, and illegal entry/exit.

In December 2013, an active shooter tabletop evacuation exercise attended by area emergency response personnel and UMR safety and security staff was conducted. This enhanced the already present relationship between UMR, Mayo Clinic, Rochester Police and Fire and other area agencies that would assist in the event of an active shooter. In accordance with Clery Act requirements, an evacuation exercise is conducted on campus each year.

Missing Student Notification

UMR has adopted a missing student notification procedure. A student may be considered missing if the student’s absence from the campus community is suspiciously different from
his/her usual pattern of behavior and/or unusual circumstances may have caused the absence. The Missing Student Procedure covers all students at UMR, not just those living in on-campus housing. UMR’s missing student policy statement and procedure may be accessed on the website at:  http://www.r.umn.edu/sites/r.umn.edu/files/Missing%20Student%20Procedures.pdf

Annual Fire Safety Report for On-Campus Housing

The on-campus student housing building (318 Commons) is fully sprinkled and there is smoke detection in every apartment, all classrooms, offices, stairwells, and common spaces. In all corridors there are fire extinguishers within 75 feet of each other. The stairwells are positive pressurized to maintain smoke containment outside the stairwells. All exits in the building are fail safe in that even if they are in the locked mode, a fire alarm will automatically unlock them for evacuation. Fire alarm monitoring is done 24/7 by an off-site company that detects fire alarms and notifies the Rochester fire department. The regulations for electrical appliances, smoking, and open flames are contained in the Guide to Community Living on the UMR website and can be accessed at the link below. Building evacuation routes are posted in each residential apartment and classroom and the UMR Building Emergency Plan (link below) contains directions for evacuation of campus or any building on campus in the case of fire. All RAs and professional staff in the housing facility are trained on evacuation procedures in a fire emergency and directions are contained in the RA handbook. Fire drills are conducted twice during the academic year. Student Security Monitors are trained on Incident Response Guidelines and evacuation procedures.

Fire drills were conducted at University Square on November 15, 2013 and at 318 Commons on November 20, 2013. There were no fires requiring fire department response in 2013.

“Building Emergency Plan”:  http://www.r.umn.edu/administration/emergency-preparedness/emergency-plan

To report fires that have ALREADY BEEN EXTINGUISHED in on-campus student housing contact:

Normal Business Hours: (any of the following)
Housing Director, 507-258-8028
Chancellor’s Office Reception, 507-258-8001
Facilities and Operations Coordinator: 507-258-8217

After Hours: (any of the following)
Student Security Monitors if they are not already aware: 507-202-1927
Student Affairs on-call professional staff: 507-881-9098

TO REPORT A FIRE CURRENTLY IN PROGRESS, CALL 9-1-1.
