

ANNUAL SECURITY & FIRESAFETY REPORT

2022

**University of Minnesota
Rochester**

Message from the President

Campus safety is critical to keeping the University of Minnesota a place where students, faculty, staff, and visitors from throughout Minnesota and around the world can work together to achieve our goals and advance discovery and impact.

Our University of Minnesota Police and Security Departments do an extraordinary job of helping the University of Minnesota remain a safe place to learn, work, and live. Officers patrol our buildings and grounds, get to know our community, and work in conjunction with both campus and metropolitan units committed to safety. This report details their efforts.

We are also working through policy and united action to improve public health on campus. The President's Initiative to Prevent Sexual Misconduct continues to proceed with its comprehensive public health approach, consistent with research on effective prevention among populations as large and diverse as ours.

We are beginning to work as well in the public health area of student mental health. This is a national crisis that affects many of our own students, and we need our best and brightest minds to focus on this issue. We are clearly positioned to be leaders in the area of student mental health, and as a first step, I have charged three of our senior leaders to complete a systemwide inventory of all activities, resources, and programs related to mental health, so that we know where we stand, where we have gaps, and where to move forward.

Positive culture change is a community effort and shared responsibility. Each of us can contribute to a safer campus by keeping our eyes and ears open, and immediately reporting all crimes and public safety problems or concerns by calling 911.

Thank you for helping to keep our University safe.

Joan T. A. Gabel
President

Message from the Chancellor

As the University of Minnesota's health science campus, UMR is fully integrated into the Rochester community. The UMR campus is a safe place because of our commitment to health and wellness across the board. Our concern for ourselves and each other provides us with the tools we need to observe, reflect and respond appropriately in our connections to the members of our community.

I want to thank the faculty, staff and students of UMR you for all you do to keep all of us safe.

Lori J. Carrell
Chancellor

Annual Security and Fire Safety Report

Preparing the Annual Security Report and Disclosure of Crime Statistics

This report has been prepared in compliance with the “Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act” (informally known as the “Clery Act”). For further information on the Clery Act please visit: www.ed.gov/admins/lead/safety/campus.html

This report includes information for the Rochester campus of the University of Minnesota.

This report is published annually by the University and made available to all current and prospective students, staff, and faculty.

Crime statistics are compiled by the Clery officer on each campus in cooperation with the local law enforcement agencies with jurisdiction over University of Minnesota Clery Geography. Additional crime information is collected from a wide range of University personnel who have been identified as Campus Security Authorities (CSAs) under the Clery Act.

The University Director of Clery Compliance and campus Clery officers review and update the information contained in this report annually.

Crime Statistics reported in this document reflect specific crimes that occurred in specific geographic locations established by federal law and were reported to University of Minnesota Campus Security Authorities. Statistics reflect reports of crime and not criminal charges or convictions.

Report a Crime to a Non-Police Campus Security Authority

The University of Minnesota encourages all reports of crime to be made to the appropriate local law enforcement agency; however, crimes may also be reported to individuals on campus who have been identified as Campus Security Authorities. The intent of including non-law enforcement personnel as campus security authorities is to acknowledge that some individuals may be inclined to report such incidents to other individuals on campus.

Campus Security Authorities include but are not limited to: Residence Hall Directors, Assistant Residence Hall Directors, Community/Resident Advisors, Advisors to student organizations, athletics coaching staff and others who have significant responsibility for student and campus activities.

Campus Security Authorities have been trained to act as a resource for anyone who wishes to report the occurrence of a crime. Crime reports made to Campus Security Authorities are forwarded to the appropriate campus department for inclusion on the Daily Crime Log and to be evaluated for the need to issue a Timely Warning Notification.

While there are many non-police Campus Security Authorities on each campus, the University of Minnesota prefers reports be made to the following non-police CSAs:

<i>Facilities and Operations Director</i>	353 University Square	507-258-8217 bstandor@r.umn.edu
<i>AVC for Student Success, Engagement, and Equity</i>	346 University Square	507-258-8106 gutie318@r.umn.edu
<i>Residential Life Director</i>	318 Commons	507-258-8028 mpeter@r.umn.edu

Voluntary, Confidential Reporting

If you are the victim of a crime and are unsure if you would like to pursue action through the University disciplinary process or the criminal justice system, you may want to consider speaking with a Campus Security Authority.

Campus Security Authorities can explain the different reporting options available to help you decide which option is best for you.

In many cases, a non-police CSA may be able to assist you in making a confidential report that would not initiate any additional action through the University or the criminal justice system. A confidential report is forwarded directly to the UMR's Clery officer to be evaluated for the need to issue a Timely Warning Notice, included in the Annual Statistical Disclosure and to be added to the Daily Crime Log.

The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the safety of yourself and the campus community. With such information, the University of Minnesota can keep an accurate record of the number of incidents occurring on campus Clery Geography; determine crime patterns, and alert the campus community of potential danger.

All reports of dating violence, domestic violence sexual assault, and stalking that are made to University employees who have an obligation to report the occurrence of such crimes will be forwarded to the Title IX office or its designee. Per University policy, mandated reporters are required to provide the following information to the Title IX office or designee in cases of alleged dating violence, domestic violence, sexual assault and stalking:

- The names of the complainant(s), respondent(s) and possible witnesses;
- The date, time and location of the alleged prohibited conduct; and
- Other relevant details about the alleged prohibited conduct that the University would need to determine what occurred and address the situation.

After receiving a report of alleged dating violence, domestic violence, sexual assault or stalking the Title IX coordinator will contact the complainant to provide resources for personal support and information about the investigation process. In cases involving a student respondent, the campus Title IX office or its designee will only begin investigating the report after receiving verbal or written confirmation that the complainant wishes to initiate an investigation.

When a complainant requests that their identity be kept confidential or that the University refrain from conducting an investigation, the campus Title IX office or its designee will make an individualized determination of whether to conduct an investigation, including consideration of the complainant's wishes, the University's responsibility for

providing a safe and non-discriminatory campus environment, and whether the University possess other means to obtain relevant evidence. In making this determination, the campus Title IX office or its designee will consider the following factors, among others; whether the respondent is alleged to have used a weapon while committing prohibited conduct; whether the respondent is alleged to have used force while committing prohibited conduct; and whether the respondent has been alleged or found to have committed prohibited conduct against other complainants.

Professional Mental Health Counselors and Pastoral Counselors Exemption

Campus professional mental health counselors and pastoral counselors, when acting in their professional capacity, are not required to report crimes for inclusion in the annual disclosure of crime statistics.

The Clery Act defines a Professional Mental Health Counselor is defined as an employee of an institution whose official responsibilities include providing psychological counseling to members of the institution's community and who is functioning within the scope of the counselor's license or certification.

A Pastoral Counselor as an employee of an institution, who is associated with a religious order or denomination, recognized by that denomination as someone who provides confidential counseling and who is functioning within the scope of that recognition as a pastoral counselor.

Timely Warning Notifications are designed to give the University community information which may aid in the prevention of similar crimes.

Crimes reported to UMR will be evaluated on a case-by-case basis by the Officer of the Day and the Director of Marketing and Communications, or their designee, to determine if a timely warning is warranted. When the Officer of the Day determines a timely warning is warranted, communications personnel will compose the warning. The Officer of the Day, in collaboration with the Director of Marketing and Communications, will approve the warning and it will be forwarded to the appropriate person for distribution.

Timely Warning Notifications will be electronically distributed to all Rochester Campus students, staff and faculty via the University of Minnesota email system.

Timely Warning Notifications may include the following details (if available):

- Date and time of the incident
- Location
- Type of crime

Personally Identifying Information of victims and reporting parties will not be disclosed in a Timely Warning Notification. Except in instances where the information is relevant to the crime— for example, in crimes which are motivated by Bias the victim's inclusion in a protected class may be released if this information is not determined to be explicitly personally identifiable.

UMR has communicated with the Rochester Police Department and has requested they inform UMR if they are aware of crimes which have been reported to them which may warrant a timely warning.

Emergency Response, Notification & Testing

Emergency Response

Emergency response operations include coordination of campus and community resources to save lives, protect property, and provide for the continuity of University operations.

The University uses the National Incident Management System (NIMS) as its standard for responding to incidents. The Department of Emergency Management and University administrators who have responsibility during an incident have been trained in NIMS. Depending on the incident, other University departments and/or other local or federal agencies may be involved in responding.

When an incident occurs that causes an immediate threat to the campus, the first responders to the scene are usually from Rochester Police Department. Rochester Police Department has been asked to inform the University of Minnesota regarding any situations that are reported to them which may warrant a campus emergency response.

Emergency Notification Systems

The University of Minnesota Rochester has several methods for communicating important safety information quickly in the event of a significant emergency or dangerous situation that poses an immediate threat to the health and safety of the campus community. The situation will dictate which notification methods are used, in some situations multiple notification systems may be used.

SAFE-U

SAFE-U is the University's emergency mass notification system. SAFE-U is used specifically to notify University students and employees of emergencies or dangerous situations which are likely to impact campus as a whole or impact University operations. SAFE U enables the University to send communications via email, text message, and/or phone messages. Students, faculty, and staff who have provided contact information are automatically registered to receive SAFE-U communications. Only University of Minnesota students, faculty, staff and those with a legitimate need are registered for SAFE-U.

Campus Email

In an emergency situation, campus email may be utilized to communicate important safety information.

Social Media

Emergency information may also be communicated on University social media feeds.

Digital Signs

Most digital signs on campus can be updated quickly to include emergency messaging.

Web Announcements

Weather-related closings and other emergency information may be announced on the University of Minnesota Rochester website.

On-Scene Emergency Personnel

On-scene emergency personnel may be able to provide valuable emergency communication depending upon the emergency situation.

Activation of Emergency Notification Systems

Prior to issuing an emergency notification, the Chancellor or designee will confirm an emergency via Rochester Police or other emergency professionals on the scene, or notifications from the National Weather Service. Information obtained from these sources will be used to determine the scope and content of the notification.

Upon confirmation of an emergency or dangerous situation, the Chancellor or designee will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the appropriate notification system(s). Notification may be delayed if issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The Department of Emergency Management is responsible for the activation of emergency notification systems for incidents of severe weather that create a dangerous situation involving an immediate threat to the safety of members of the campus community.

The primary method of emergency notification is the SAFE-U system. When SAFE-U is activated, it will deliver emergency messaging to all students and employees. The activation of other emergency notification systems such as Tone Alert Radios are based on the guidelines established in the Department of Public Safety Emergency Procedures Manual. These systems may be activated to supplement notifications delivered via SAFE-U.

SAFE-U notifications will consist of basic information about the type of emergency or dangerous situation and information on how to avoid danger. Updated information will be disseminated as it becomes available and as time allows or when the immediate threat has been mitigated.

SAFE- U notifications can be authorized by the following individuals: PSECC, Chancellor, Chancellor's Leadership Team, Director of Communications, Facilities and Operations Director, or others as designated.

Dissemination of emergency information to the larger community (i.e., parents and residents from surrounding neighborhoods) will take place as time allows. Depending on the nature of the incident, the University could utilize such avenues as the University internet homepage or the media. The first concern of the University will be to disseminate information to those people directly affected by the emergency. Dissemination to the larger community is the responsibility of the Director of Communications.

Emergency Response Testing

The University Department of Emergency Management conducts an exercise to test the emergency response and evacuation procedures of the Rochester campus at least once annually. These tests are designed to assess and evaluate the emergency plans and capabilities of the institution. Tests of the emergency procedures may be announced or unannounced.

The Department of Emergency Management is responsible for documenting and analyzing the effectiveness of each test. The Department of Emergency Management retains documentation of each test including a description of the test, the date and time of the test, and whether the test was announced or unannounced.

A campus wide test was conducted on December 22nd, 2021 and consisted of a tabletop exercise of response to a water main break.

The next campus wide test will be conducted in the Fall of 2022.

Emergency and Evacuation Plans

The Department of Emergency Management coordinates the development of emergency plans. There are three levels of emergency plans at the University of Minnesota:

Building Emergency Plans - Each building on campus should have a Building Emergency Plan. The plan outlines evacuation procedures and other emergency instructions.

Continuity of Operations Plans - Continuity of Operations Plans (COOP) outline the steps critical operating units must take to keep their department running in the event of an emergency. Departments that are deemed "critical operating units" must complete a Continuity of Operations Plan, per the University's Policy.

Emergency Operations Plan - The campus Emergency Operations Plan is the overall plan that guides University administrators in the event of an emergency. The University is required by the state Homeland Security and Emergency Management agency to have an Emergency Operations Plan.

The Department of Emergency Management tasks each area of the University to develop and maintain emergency procedures and guidelines for their buildings and employees. The following are general evacuation procedures, for building specific evacuation procedures, consult that building's Building Emergency Plan.

General Building Evacuation Procedure

At the sound of the emergency alarm, it is the responsibility of all building occupants to evacuate immediately and proceed to predetermined assembly points, away from the building.

Building occupants are also responsible for ensuring that their visitors, customers, and contractors in their department follow the evacuation procedure described herein and leave the building along with all other occupants.

Faculty and instructors are responsible for dismissing their classes and directing students to leave the building by the nearest building exit upon hearing the building alarm or being notified of an emergency.

Designated essential personnel needed to continue or shut down critical operations, while an evacuation is underway, are responsible for recognizing and/or determining when to abandon the operation and evacuate themselves.

Evacuation Instructions

Whenever you hear the building alarm or are informed of a building emergency:

- Do not panic.
- Do not ignore the alarm.
- Leave the building immediately, in an orderly fashion.
- Do not use elevators.
- Classes and meetings in session must be dismissed and students directed to leave.
- Follow quickest evacuation route from where you are (see posted floor evacuation diagram/map).
- Do not go back to your office area for any reason.
- Proceed to the designated emergency assembly point for your area. If the designated assembly point/area is unsafe or blocked due to the emergency, proceed to the alternate assembly point.
- Report to your Building/Work Area Rep at the assembly point to be checked off as having evacuated safely; also report any knowledge you may have of missing persons or those located in an Area of Refuge.
- Return to the building only after emergency officials or building coordinator give the all-clear signal. Silencing the Alarm does not mean the emergency is over.

Chemical Spill Lab Evacuation instructions

In the event of the release of hazardous chemical substances which threaten human health and the immediate lab needs to evacuate, but other building occupants are safe, please follow the steps below:

- Notify other lab occupants in immediate area
- Everyone who can safely leave, should leave lab away from spill
- While exiting, close double doors leading into other labs
- A lab occupant leaving the lab should immediately call 911 (or head to area of refuge button (near freight elevator on each floor) if applicable)
- Notify operator of spill and location
- Operator can remotely activate fire alarm (for some buildings) and send emergency personnel
- Evacuate building according to general evacuation procedures

Building Emergency Instructions

In the event of a loss of power, water leak or flood, elevator failure or other building emergency:

- Call Facilities and Operations at 507-258-8217 to notify them of the emergency. Call 911 for emergencies with injuries.
- Notify staff that is located near the emergency so they may take appropriate precautions.
- Follow evacuation instructions, if evacuation is necessary.

Shelter Emergency Instructions

In the event of notification of severe weather, safely discontinue work and go to the nearest designated safe shelter location.

Active Threat Instructions: Run, Hide, Fight

The guidelines below should be considered during this type of emergency, but your specific situation may require deviation from these suggestions.

Run

- Have an escape route and plan in mind.
- Leave your belongings behind.
- Keep your hands visible.
- Run to a place of refuge, well beyond the norm.

Hide

- If running is not possible, hide.
- Lock and barricade doors; shut off lights.
- Remain silent, yet vigilant.
- Avoid huddling together.

Fight

- Fighting is a last resort, use only when your life is in imminent danger.
- Use improvised weapons, i.e. chair, fire extinguisher.
- Attempt to incapacitate the active threat.
- There is strength in numbers; work together against the active threat.

Call 9-1-1

- Call ONLY if safe and with information about the active threat.
- Clarify you are on the University of Minnesota campus and where you are.
- Give the location of the active threat(s).
- Provide physical description of active threat(s).
- Describe type of weapons held by the active threat(s).
- Notify the dispatcher of victims and their location.

How to React When Law Enforcement Arrives:

- Remain calm; follow officers' instructions.
- Keep your hands up and out in front of you, assuring your hands are empty.
- Keep hands visible at all times.
- Avoid making quick movements towards officers such as attempting to hold on to them for safety.
- Avoid pointing, screaming and/or yelling.
- Move quickly towards the nearest exit or where directed to by police.
- Do not stop to ask officers for help or directions when evacuating.

Once in a Safe Place

Once you are in a safe place, DO NOT LEAVE. Emergency responders need to account for everyone. As the event unfolds and is better understood, law enforcement will provide additional instructions as to where you should be or when you will be able to leave. Please be patient. Your safety is our most important concern.

Security of and Access to Campus Facilities

Access to Campus Facilities

There are three distinct levels of access to buildings, public hours, university hours and restricted hours. Building hours vary according to building use.

Public Hours

During Public Hours, buildings will remain open to everyone in the University community and to the general public. Public Hours will generally coincide with the standard business day of 7 a.m. to 5 p.m. For classroom buildings, Public Hours will generally be 7 a.m. to 9 p.m. to accommodate evening classes.

University Hours

University Hours at UMR typically coincide with Public Hours but may be subject to change.

Restricted Hours

During Restricted Hours, buildings are closed to the general public and to the general University community. Only people who have been previously granted permission to enter the building are allowed to do so. Typically, the people granted access during Restricted Hours are the people who would logically have permission to enter a building when it is locked, for example, faculty who teach or staff who work in a specific building. Again, using a classroom building as an example, the Restricted Hours would be between 9 p.m. and 7 a.m.

Security of Campus Facilities

The University controls and monitors access to its space by using traditional key systems, electronic card reader systems, and intrusion alarm systems. Exterior doors of all University buildings are equipped with electronic card access control systems.

Campuses, departments and units are required to manage all keys and access control devices held by their employees. Each campus, department or unit has a Department Facilities Representative to enforce this policy at the local level.

Individuals are prohibited from unauthorized possession, use, duplication and changes to keys or access control devices. Individuals are also prohibited from bracing open doors equipped with access control devices. Violators of this policy will be subject to disciplinary actions for the University or criminal charges where appropriate.

Students, faculty and staff are required to carry their University issued UCard or government issued ID when in University buildings outside of public hours. The UCard or ID must be presented upon request by law enforcement or security personnel, or by a University employee acting within the purview of their job responsibilities. Anyone in a University building that is unable to present their UCard or ID outside of public hours may be asked to leave. Additional restrictions may apply to areas deemed to have a higher security standard.

Access & Security in Student Housing Facilities

Access to the residential floors of UMR's student housing facility are restricted to residents who possess a key fob. No person can access residential areas without a resident assigned fob.

Residents are required to always escort visitors within residence halls.

Common areas within UMR spaces within the residence halls are equipped with security cameras that are monitored by the Public Safety Emergency Communications Center at the University of Minnesota Twin Cities campus or local property managers.

All apartment and individual bedroom doors have locking mechanisms. Apartment doors are always locked and can only be accessed by the tenants of the apartment.

Residence hall stairways allow egress in the event of an emergency but do not allow ingress. To access the floors, all persons must use the elevators that are controlled via key fob access.

The Rochester Skyway is connected to 318 Commons and allows for comfortable, direct access to other UMR facilities and downtown locales. The Skyway is well-lit at night and open until 12:00AM or 1:00AM and provides a climate controlled and safe alternative to walking outside.

Each night beginning at 8:00pm a Resident Assistant is on duty and available by phone. While on duty the RA will make multiple rounds of the building with additional RA staff available on weekends.

Student Security Monitors are on duty at residence halls on evenings and weekends during the academic year while credit classes are in session.

Security Considerations used in the maintenance of campus facilities

Residents of residence halls who have maintenance concerns regarding any building issue should contact Residential Life staff to report their concerns.

Security Monitors and Residential Life staff routinely perform building checks to ensure that equipment relating to safety and security is properly maintained and functioning.

Concerns regarding maintenance concerns or building issues can also be directed to the Facilities and Operations Director.

The facility which houses UMR and Galleria at University Square has security services through Best Crowd Management. Security officers from Best patrol the common areas of the facility and perform routine checks of safety and security equipment to ensure that it is functioning properly.

Crime Prevention and Safety Programming

A presentation on safety and security at UMR is provided at new employee orientation. Crime prevention and safety information is also provided to the Orientation and Welcome Leaders (OWLS) training in August of each year. The OWLS provide safety information to the new students during orientation week.

The faculty and academic staff are provided safety information at their first meeting of the fall semester. Faculty are reminded to point out the safety measures of each classroom and the evacuation routes for fire and weather emergencies to each of their classes during the first week of the semester.

University Policy on Drugs and Alcohol

The University is committed to providing a healthy learning and working environments for all students and employees and strives to meet this commitment through prevention and awareness programs. Alcohol abuse and illegal drug use endangers the health and safety of all students and employees.

- the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance on all University premises, in University-supplied vehicles, and as part of University activities and business.

University students, employees, and others who conduct research and teaching activities with controlled substances must comply with Administrative Policy: Using Controlled Substances for Research in order to ensure that they follow all applicable regulations and safely handle and prevent diversion of controlled substances.

University community members are expected to refer suspected illegal situations to University police or local law enforcement agencies for criminal investigation leading to possible prosecution.

On the Twin Cities campus, the University of Minnesota Police Department is responsible for enforcing state laws related to underage drinking and state and federal law regulating the possession, use and sale of illegal drugs.

Sexual Assault

The term sexual assault is not defined by Minnesota Law. The comparable crimes of rape, fondling, statutory rape, and incest are generally coded as criminal sexual conduct in the state of Minnesota.

“Minnesota law classifies the crime of criminal sexual conduct into five categories: first- through fifth-degree criminal sexual conduct, with first-degree carrying the most severe penalties and fifth-degree the least. Minn. Stat. §§ 609.342 to 609.3451.”

“Generally speaking, the first-degree and third-degree crimes apply to sexual conduct involving sexual penetration of the victim; the second-, fourth-, and fifth-degree crimes apply to sexual conduct involving sexual contact with the victim without sexual penetration.”

“Criminal sexual conduct in the first and second degree typically apply to conduct involving personal injury to the victim; the use or threatened use of force, violence, or a dangerous weapon; or victims who are extremely young.”

“Criminal sexual conduct in the third, fourth, and fifth degree typically address less aggravated conduct and apply to other situations in which the victim either did not consent to the sexual conduct, was relatively young, or was incapable of voluntarily consenting to the sexual conduct due to a particular vulnerability or due to the special relationship between the offender and the victim.”

The above information is from the following source: <http://www.house.leg.state.mn.us/hrd/pubs/ss/ssovrcsc.pdf>

Stalking

MN 609.749 Subd. 1

“stalking” means to engage in conduct which the actor knows or has reason to know would cause the victim under the circumstances to feel frightened, threatened, oppressed, persecuted, or intimidated, and causes this reaction on the part of the victim regardless of the relationship between the actor and victim.

Affirmative Consent as defined by University of Minnesota Policy

Board of Regents Policy: *Sexual Harassment, Sexual Assault, Stalking and Relationship Violence* defines Affirmative consent as freely and affirmatively communicated words or actions given by an informed individual that a sober reasonable person under the circumstances would believe communicate a willingness to participate in the sexual contact.

The following factors will be considered when determining whether affirmative consent was given.

- Each individual who wishes to engage in sexual contact is responsible for obtaining consent from the other individual or individuals who intend to be involved in the sexual contact.
- A lack of protest, the absence of resistance, and silence do not by themselves indicate consent.
- The existence of a present or past sexual, dating, or other romantic relationship between the individuals involved does not by itself imply consent to sexual contact.
- Consent must be present throughout the sexual contact and may be given and withdrawn at any time.

- When consent is withdrawn, all sexual contact must stop. Where there is confusion about the state of consent, sexual contact must stop until the individuals have verified the affirmative consent of all individuals involved.
- Consent to one form of sexual contact does not by itself constitute consent to another form of sexual contact.

Consent is not obtained where:

- An individual is compelled to engage in unwanted sexual contact through the use of coercion. Coercion may consist of physical force, intimidation, threats, or severe or persistent pressure that would reasonably cause an individual to fear significant consequences if they refuse to engage in sexual contact.
- An individual involved in sexual contact is incapacitated due to the influence of drugs or alcohol, and a reasonable person would know of this incapacitation. Incapacitation due to the influence of drugs or alcohol is a state beyond mere intoxication or impaired judgment. Some indicators of incapacitation due to the influence of drugs or alcohol may include:
 - A lack of control over one's physical movement (for example, an inability to walk or stand without stumbling or assistance).
 - An inability to effectively communicate (for example, where one's speech is heavily slurred, incomprehensible, or nonsensical).
 - A lack of awareness of one's circumstances or surroundings (for example, a lack of awareness of where one is, how one got there, who one is with, and how or why one became engaged in sexual contact).
- An individual involved in sexual contact is unable to communicate or understand the nature or extent of the sexual situation because of a physical or mental condition.
- An individual involved in sexual contact is asleep, unconscious or involuntarily physically restrained.
- Sexual intercourse occurs with an individual who is not of legal age to give consent pursuant to Minnesota state law.
- Sexual intercourse occurs between parties who are related to each other within the degrees wherein marriage is prohibited by Minnesota state law.

Education and Prevention Programs

All incoming students and all employees are required to complete an educational module on issues related to sexual misconduct.

The University engages in and is in the process of developing additional comprehensive, intentional, and integrated programming, initiatives, strategies, and campaigns intended to end dating violence, domestic violence, sexual assault, and stalking that:

- Are culturally relevant, inclusive of diverse communities and identities, sustainable, responsive to community needs, and informed by research, or assessed for value, effectiveness, or outcome; and
- Consider environmental risk and protective factors as they occur on the individual, relationship, institutional, community, and societal levels.

Primary Prevention and Awareness Programming

The University utilizes online educational primary prevention and awareness programs, developed by EverFi, for all employees and incoming students. All incoming first-year and transfer undergraduate students, post secondary enrollment options (PSEO) students, and graduate and professional students must complete a sexual assault prevention course. Students take one of the following, depending on their status: "Sexual Assault Prevention for Undergraduates," "Sexual Assault Prevention for Graduate Students," or "Sexual Assault Prevention for Adult Learners." Employees must complete a training titled "Preventing and Responding to Sexual Misconduct." Each of these trainings were developed to be compliant with the requirements of the Clery Act and to educate individuals about the following topics:

- Values, Identities, and Relationships
- Gender Identities and Stereotypes
- Sexual Harassment and Stalking
- Consent, Coercion, and Stepping In
- Reporting Options and Responding to a Survivor

Additionally, these courses cover:

- Identify domestic violence, dating violence, sexual assault and stalking as prohibited conduct;
- Use definitions provided both by the Department of Education as well as state law to define what behavior constitutes dating violence, domestic violence, sexual assault, and stalking;
- Defines what behavior and actions constitute consent to sexual activity in the State of Minnesota and/or using the definition of consent found in the Student Code of Conduct if state law does not define consent
- Provides a description of safe and positive options for bystander intervention. Bystander intervention means safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking.
- Bystander intervention includes recognizing situations of potential harm, understanding institutional structures and cultural conditions that facilitate violence, overcoming barriers to intervening, identifying safe and effective intervention options, and taking action to intervene
- Information on risk reduction. Risk reduction means options designed to decrease perpetration and bystander inaction and to increase empowerment for victim/survivors in order to promote safety and to help individuals and communities address conditions that facilitate violence.

Ongoing Prevention & Awareness Education

During Sexual Assault Awareness Month, UMR offers a variety of programming aimed at increasing awareness regarding sexual violence. In the past this programming has included, communication in student newsletter and social media regarding consent, and an all campus one hour event hosted by UMR Health and Wellness and Living on Purpose discussing bystander intervention and peer mentorship.

The Health and Wellness Newsletter is distributed bi-monthly during the academic session and often features information about sexual violence prevention and support resources, including Title IX support and response.

Safe and Positive Options for Bystander Intervention

“Bystander intervention” means safe and positive options that may be carried out by an individual or individuals to prevent harm or intervene when there is a risk of dating violence, domestic violence, sexual assault, or stalking.

Bystander intervention includes:

- recognizing situations of potential harm
- understanding institutional structures and cultural conditions that facilitate violence
- overcoming barriers to intervening
- identifying safe and effective intervention options
- taking action to intervene

Active bystanders recognize emergency situations (sexual assault, alcohol abuse, safety) and non-emergency situations (noticing a friend is depressed, gambling, academic problems) and have the skills to intervene directly or indirectly.

How Can I Prevent Violence?

Be a good bystander. If you recognize an emergency or non-emergency situation happening, use the “3 Ds” to determine how to act.

Direct

- If you feel safe, confront the situation directly
- Be calm, confident and respectful- the main goal is to stop the behavior
- Ask if the involved parties are okay, seek to help

Distract

- Diffuse the situation- interject humor
- Change the subject- ask the parties involved about a class assignment or current event
- Interrupt the flow of the behavior- spill a drink, create noise, any action which will interrupt the negative behavior

Delegate

- Ask others for help when you don't feel safe or comfortable approaching the situation alone
- There is strength in numbers, enlist the help of friends
- Call 911

Risk Reduction

The following represent simple steps to reduce risk for becoming a victim of crime

Walking

- Keep your eyes up and ears open, be alert and aware of your surroundings.
- Walk with purpose and confidence.
- Walk with others.
- Walk well-illuminated and heavily traveled routes populated by others.
- Keep valuables and money out of public view- carry money or wallets in an inside or front pocket. Wear purses or bags across the body instead of over one shoulder, turn any flaps, zippers, or pockets toward your body.
- Cross the street if you see anything on your side that makes you nervous.
- Call 911 if you witness a crime in progress or if you observe suspicious activity that makes you feel unsafe.

Driving

- Keep car doors locked and windows rolled up most of the way.
- Reduce distractions, be alert and aware of your surroundings including other motorists, bicyclists, and pedestrians.
- If someone tries to break into your car while you are in it, honk the horn in repeated short blasts.
- If you are being followed, do not go home. Call 911 and drive to the nearest safe place with people visibly present.
- Do not pick up hitchhikers or interact with panhandlers on the street.
- Park your car in well-lighted parking areas and lock all doors. Store valuables in a locked trunk or make sure they are hidden from plain view.

At Home

- Make sure your doors have dead bolts, security chains, and peepholes.
- Change old locks when you move into a new residence.
- Lock your doors and windows anytime you leave, even if it is just for a few minutes.
- If you will be away, use variable light timers to make it appear as though someone is home.
- Do not hide spare keys outside.
- Never prop exterior doors to apartment buildings, if you see doors propped remove the prop and contact building management.
- Do not allow others to tailgate into your secure building, do not assume they are residents.
- If you believe someone has broken into your home, do not go inside, call 911.

When you go out

- Plan ahead! Know where you are going, who you are going with, where you will be staying the night and how you will be getting there safely.
- Communicate the plan with your friend group.
- If you are uncomfortable with the plan, speak up.
- Stay with your planned friend group and do not deviate from the plan without first communicating with your friend group.
- Drink only from pre-packaged containers or drinks you make yourself, so you know the alcohol content.
- Do not leave your drink unattended, do not accept drinks that you did not prepare yourself or that you saw being prepared.
- Stick with your plan, look out for your friends and have them look out for you.
- Get involved if you believe that someone is at risk. If you see someone in trouble or someone pressuring another person, don't be afraid to intervene - or get help to do so.

The vast majority of sexual assaults involving college-aged people occur between people who know each other and many assaults occur while one or both people involved are under the influence of alcohol or other drugs. Here are some tips to help keep you and your friends safe:

Reduce the Risk of Sexual Assault

- Physical force is sometimes used to commit an assault, however, in college sexual assaults each of the following tactics are more commonly employed and also indicate assault. Manipulation (for example, encouraging someone to drink more in an attempt to lower their inhibitions), Coercion (for example, trying to talk someone into an activity they may seem reluctant to participate in), Threats (for example, threatening to tell others something about the person).
- Communicate with your partner directly. It is okay to say yes to some activities and no to others. You are the only one who knows your intentions, preferences and limits.
- Obtain clear consent for each activity. Consent for one activity does not imply consent for all.
- An individual who is incapacitated due to the influence of drugs or alcohol cannot provide consent to engage in sexual activity.
- Take time to hear what the other person has to say. If you feel they are not being direct or are giving you a "mixed message" ask for clarification.
- If someone seems uncomfortable, is not engaged, or is not reciprocating, stop and check in with them.

Advocacy Support, Safety, Medical Assistance & Evidence Preservation

Advocacy

If you would like assistance and support from a victim's advocate you can contact Olmsted County Victim Services 24-hour crisis line by calling 507-289-0636 or the UMR Health and Wellness Advocate at 507-258-8671. Advocates can offer support, resources on and off campus, safety planning, assist in filing a police report and answer questions you may have regarding next steps.

Safety

If the assault happened on the Rochester campus, contact the Rochester Police Department by calling 911. If the assault occurred off campus contact the appropriate local police department. Even if you do not want to file a report, police will arrive on scene, ensure your safety and provide you with additional resources and can transport you to the hospital to seek medical attention, if requested. Officers can complete a police report if you would like.

Medical Assistance

After an incident of sexual assault and domestic violence, the victim/survivor should consider seeking medical attention as soon as possible. Health care providers can treat injuries and take steps to address concerns of pregnancy and/or sexually transmitted disease, even if victim/survivors do not opt for forensic evidence collection.

Victim/survivors are encouraged to seek treatment at a medical facility of their choice.

Medical Forensic Exam

In Minnesota, victim/survivors can elect to have evidence collected even if they chose not to make a report to law enforcement.

Victims/survivors may opt to make an anonymous report to law enforcement through a sexual assault nurse examiner. In this case, an Incident Criminal Report (ICR) number will be assigned. Evidence collected will be turned over to law enforcement marked only with the ICR number – no identifying information will be shared. Should the victim/survivor decide to pursue a criminal investigation, evidence may be used by law enforcement at that time.

Evidence Preservation

Trained investigators may look for evidence at locations that are relevant to the case, such as the scene where the assault took place. In order to preserve evidence it is important to not wash or clean the bed/linens/area and clothing worn when the sexual assault occurred.

DNA evidence can be collected from blood, saliva, sweat, urine, skin tissue, and semen. That's why it's important to try to avoid bathing, cleaning your fingernails, or urinating until after a sexual assault forensic exam has been performed.

Victim/survivors of dating violence, domestic violence, sexual assault and stalking are encouraged to preserve evidence by saving text messages, instant messages, social networking pages, other communications, and keeping pictures, logs, or other copies of documents. These documents can be helpful in proving the alleged crime and are helpful in obtaining court orders for protection.

As time passes, evidence may dissipate or become lost or unavailable, thereby making investigation, possible prosecution, disciplinary proceedings, or obtaining protection from abuse orders related to the incident more difficult. If a victim/survivor chooses not to make a complaint regarding an incident, they nevertheless should consider speaking with law enforcement to preserve evidence in the event that the victim changes her/his mind at a later date.

Reporting Options

Victim/survivors of dating violence, domestic violence, sexual assault, or stalking are encouraged to report the incident promptly to the Rochester Police Department, appropriate local law enforcement agency or Title IX office.

While all University employees are required by University policy to forward reports of dating violence, domestic violence, sexual assault, or stalking of which they are made aware to the Title IX office; victim/survivors are encouraged to report directly to the Title IX office. The Title IX office is the best location on campus for victim/survivors to directly report crime information and obtain appropriate resources and support.

Victims have the right to:

- **Notify proper law enforcement authorities; including on- campus and local police**
- **Be assisted by campus authorities in notifying law enforcement, if the victim chooses**
- **Decline making a report to law enforcement**

Police

Victim/survivors of dating violence, domestic violence, sexual assault, or stalking are encouraged to file a report with the Rochester Police Department.

UReport (Anonymous reporting)

Reporting incidents of dating violence, domestic violence, sexual assault and stalking can be difficult. You can make an anonymous report through UReport, a resource that was established by the University of Minnesota for reporting such matters in a way that is protective of your concerns and identity.

When utilizing UReport, you are not required to provide your name or other information that might identify you. However, if you choose to remain anonymous, the University will be limited in the scope of its investigation and response. The reporting website will not track the identity of the computer you use.

If you do provide your name, or if your identity becomes known during an investigation, the University might become obligated to use your identity in the process of investigating any alleged misconduct. However, the University forbids retaliation against people who make good faith reports of violations of law or University policy. Therefore, if you experience retaliation or other negative consequences as the result of providing information through UReport or having your identity revealed in the process, you should report it. Information you provide will be used to help determine whether there has been a violation of law or policy.

Information may be shared with persons within the University if they have a need to know. Other persons, organizations, or agencies may obtain access to this information if they have statutory or judicial authority to do so.

For more information or to make a report, go to: <https://compliance.umn.edu/report>

Do not use the UReport site to report immediate threat to life or property. Reports submitted through this service may not receive an immediate response. If you require emergency assistance, please call 911.

Public Reporting and Disclosures and Personally Identifying Information

Crimes reported to Campus Security Authorities at the University of Minnesota are recorded on a publicly available crime log and if applicable are included in the campus annual statistical disclosure. If it is determined that the alleged incident presents a serious and/or continued threat to the campus community, a Timely Warning Notice may be released according to policy. However, information included in these public disclosures will not include any personally identifiable information of the survivor or witnesses, unless it presents relevance to the case (particularly for bias motivated crimes).

Supportive Measures and Accommodations

The University will provide supportive measures designed to restore or preserve equal access to the University's programs and activities, protect the safety of all parties or the educational environment, and/or deter prohibited conduct. Supportive measures are non-disciplinary, non-punitive individualized services provided to a party that do not unreasonably burden another party. They are offered to individuals as appropriate and reasonably available. Supportive measures may include the following:

- counseling and support services;
- academic or course-related adjustments, such as extensions of deadlines;
- modifications of work or class schedules;
- campus escort services;
- restrictions on contact between the parties;
- changes in work or housing locations;
- leaves of absence;
- increased security and monitoring of certain areas of campus; and
- assistance in making a report to law enforcement or obtaining a protective order.

Supportive measures may be implemented because an individual has requested them, the campus Title IX office has recommended them, or a local unit or department has identified a need for them. Supportive measures are available regardless of whether a complainant files a formal complaint with the campus Title IX office or pursues any related process.

Complainants and respondents may seek these supportive measures by contacting the campus Title IX office, which is responsible for coordinating the effective implementation of supportive measures. Campus or local victim-survivor advocacy offices may also be able to assist complainants in requesting supportive measures. Alternatively, complainants and respondents may seek supportive measures directly from the departments or individuals with the ability to provide the requested supportive measures, such as the campus housing and residential life office or the appropriate faculty member, supervisor or human resources representative.

The departments or individuals with the ability to provide the requested supportive measures will determine which supportive measures to take depending on the circumstances of each case and can seek assistance from the campus Title IX office.

The University will maintain the confidentiality of any supportive measures to the extent that maintaining such confidentiality would not impair the ability of the institution to provide the accommodations or protective measures.

The campus Title IX office staff are also available to meet with University members to address questions or concerns about the provision of accommodations or protective measures.

Requests for accommodations can be made at:

Any accommodations or protective orders will be maintained as confidential to the extent that maintaining such confidentiality will not impair the ability of the University to provide the accommodations or protective measures. In some cases, some personally identifying information must be released to a third party with a need to know the information in order to arrange for accommodations.

University Process for Resolving Sexual Assault, Dating Violence, Domestic Violence, and Stalking Complaints

This section describes the University of Minnesota process for resolving complaints of Sexual Assault, Dating Violence, Domestic Violence and Stalking. This section gives an overview of the University of Minnesota Sexual Harassment, Sexual Assault, Stalking and Relationship Violence Administrative Policy. The entire policy can be found [here](#).

Filing a report with the campus Title IX Office

A complainant may file a formal complaint to request a grievance process.

A complainant files a formal complaint by submitting a document to the campus Title IX office that: 1) alleges that an individual engaged in prohibited conduct toward the complainant; and 2) requests that the University investigate the allegation of prohibited conduct. The document must contain the complainant's physical or digital signature or otherwise indicate that the complainant is the individual filing the formal complaint.

The formal complaint may be filed with the campus Title IX office in person and via email

Rights and Options

When the campus Title IX office learns about alleged dating violence, domestic violence, sexual assault or stalking it will promptly contact the complainant to:

Provide information about available supportive measures, including:

- information about supportive measures and counseling, health, mental health, victim advocacy, legal assistance, visa and immigration assistance, student financial aid resources within the institution and in the community that are available with or without the filing of a formal complaint, including
- information about how to request supportive measures, including changes to academic, living, transportation and working situations,
- information about the University's services related to no-contact orders, orders for protection, or other similar lawful orders,
- information about how the University will maintain the confidentiality of supportive measures provided to the complainant, and
- an invitation to the complainant to discuss supportive measures and share their wishes with respect to supportive measures with the campus Title IX office;
- Where applicable, provide information about the various processes offered by the University to address prohibited conduct;
- Where applicable, explain the process for filing a formal complaint or requesting an informal problem-solving process;
- Provide information about how the University will complete publicly available recordkeeping, including Clery Act reporting and disclosures, without the inclusion of personally identifying information about the complainant;
- Provide written notification about the importance of preserving evidence that may assist in a legal or campus disciplinary proceeding or may be helpful in obtaining a protective order;
- Provide information about the complainant's right to seek medical treatment, as appropriate; and

- Provide written information to the complainant about their right to contact law enforcement, to decline to contact law enforcement, to be assisted by campus representatives in contacting law enforcement, and to seek a protective order, as appropriate.

When a complainant does not respond to the communication from the campus Title IX office providing the information described above, the campus Title IX office will generally presume that the complainant does not want to initiate a grievance process or an informal problem-solving process.

Confidentiality

The University is committed to protecting the privacy of all individuals involved in an informal problem-solving process or grievance process to the greatest extent legally permissible. In order to carry out an informal problem-solving or grievance process and/or to otherwise to comply with legal obligations, it is often necessary for the University to share the identities of the parties and/or witnesses, as well as information provided by the parties and/or witnesses, with the parties and other participants in the process. The identities of these individuals and the information provided during these processes also may be included in an investigation report or other document relating to the case, which may be provided to others as appropriate.

The University will keep private the identity of complainants, respondents, witnesses, and third-party reporters in cases involving Title IX-based prohibited conduct except when necessary to: 1) carry out an informal problem-solving or grievance process; 2) disclose data as required by the Minnesota Government Data Practices Act (MGDPA); or 3) otherwise comply with legal obligations.

The University does not restrict the ability of complainants or respondents to discuss allegations that have been reported or to gather and present relevant evidence. At the same time, the University and the participants in the grievance process have a compelling interest in protecting the integrity of the grievance process, protecting the privacy of parties and witnesses, and protecting parties and witnesses from harassment, intimidation, or retaliation during a grievance process. To further these goals, witnesses and parties are encouraged to limit their sharing of information about a matter (including the allegations, the identities of the parties and witnesses, and the questions asked in interviews) while the grievance process is ongoing. Parties and witnesses are also cautioned not to discuss the allegations in a manner that constitutes retaliation or unlawful conduct. Further, parties and their advisors are not permitted to disseminate the evidence provided to them.

Training

Individuals responsible for resolving complaints of dating violence, domestic violence, sexual assault and stalking receive training in the following areas:

- the definitions of prohibited conduct, including the definitions of Title IX-based prohibited conduct;
- the scope of the University's education programs and activities;
- how to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes, where applicable;
- how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias;
- technology to be used at a live hearing, where applicable;
- issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant; and
- issues of relevance to create an investigative report that fairly summarizes relevant evidence, where applicable.

- Individuals who conduct the University’s grievance process (including Title IX Coordinators, investigators, hearing panel members, University Authorities, Appellate Officers, and any person who facilitates an informal resolution process) will also be trained annually on issues related to prohibited conduct and on how to conduct a grievance process that protects the safety of victims and promotes accountability.

Upon receiving a report of sexual misconduct, the campus Title IX Office takes one of the following three actions:

Take no further action beyond offering supportive measures

In certain cases where a complainant does not want an informal problem-solving or grievance process, or when the campus Title IX office does not have sufficient information to effectively initiate such a process, the campus Title IX office may decide not to take any action beyond offering supportive measures to the complainant.

Initiate an informal problem-solving process

The campus Title IX office may initiate an informal problem-solving process when a grievance process has not been initiated or has been dismissed. In an informal problem-solving process, the campus Title IX office does not determine whether a respondent has violated University policy. However, the campus Title IX office may provide resources to help address the concerns raised and make recommendations for responsive action, including actions aimed at preventing misconduct from occurring.

For example, informal problem-solving processes may include:

- gathering additional information about the alleged prohibited conduct to determine how to most effectively respond to the alleged prohibited conduct or to provide relevant information to the individuals involved;
- notifying a respondent about the concerns raised, and about any reported impact of the concerns on a complainant or community;
- providing education or coaching to a respondent or complainant;
- providing recommendations that are aimed at preventing further concerns from arising to an appropriate individual who oversees a respondent or complainant; and/or
- establishing a plan to monitor for future misconduct.

Even if the campus Title IX office originally initiates an informal problem-solving process, the Title IX Coordinator may decide, after the campus Title IX office has gathered additional information about the alleged prohibited conduct, that it is appropriate to sign a formal complaint and initiate a grievance process.

Initiate a grievance process

The campus Title IX office will initiate a grievance process when the complainant has filed a formal complaint requesting that the University investigate alleged prohibited conduct or when the Title IX Coordinator has signed a formal complaint. The grievance process includes an investigation, opportunity for a live hearing, and opportunity for an appeal. In certain cases, the parties may also be offered an informal resolution option and/or an administrative resolution option after the investigation is complete.

The University is committed to providing all parties with robust procedural fairness protections in the grievance process, including notice of the report and investigation, the opportunity to present evidence and identify witnesses, and an impartial and unbiased investigation and adjudication process.

The University's grievance process applies the preponderance of the evidence standard when determining whether sexual misconduct occurred in violation of University policy. "Preponderance of the evidence" means that it is more likely than not that a policy violation has occurred.

Complainants and respondents may be accompanied to meetings and hearings in the grievance process by: 1) an advisor of their choice; and/or 2) a support person, who cannot be a fact witness in the case. When a party does not have an advisor at a live hearing, the University provides an advisor at no cost to make opening and closing statements, and to conduct direct and cross-examination on behalf of that party.

Grievance Process

The grievance process is guided by following principles:

- Title IX Coordinators, campus Title IX office staff who conduct investigations, decision-makers and individuals designated to facilitate informal resolution processes (where available) who: 1) do not have a conflict of interest or bias for or against complainants or respondents generally or individual complainants or respondents specifically; and 2) are trained in accordance with the University of Minnesota Sexual Harassment, Sexual Assault, Stalking and Relationship Violence administrative policy and applicable laws.
- A burden of proof that rests on the University.
- A burden of gathering evidence sufficient to reach a decision on responsibility and disciplinary sanctions, if any, that rests on the University.
- An equal opportunity for the parties to present witnesses.
- A presumption that a respondent is not responsible for the alleged prohibited conduct until a decision on responsibility and disciplinary sanctions, if any, is made at the conclusion of the grievance process.
- An objective evaluation of all relevant evidence.
- Relevant evidence is information pertinent to proving whether facts material to the allegations are more or less likely to be true.
- Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not considered relevant, unless such questions and evidence: 1) are offered to prove that someone other than the respondent committed the conduct alleged by the complainant; or 2) concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.
- No consideration of information protected under a legally recognized privilege, or questions seeking disclosure of this information, unless the person holding the privilege waives it.
- No access to or consideration of a party's records that were made or maintained by a physician, psychiatrist, psychologist, or other professional in connection with the provision of treatment to the party, unless that party provides voluntary, written consent.
- Credibility determinations, where applicable, that are not based on an individual's status as a complainant, respondent, or witness.

Investigation

Investigations into formal complaints will be conducted by the campus Title IX office, except that investigations into stalking and relationship violence of a non-sexual nature will be conducted: 1) for student respondents, by the campus office or official that investigates non-sexual Student Conduct Code complaints; 2) for employee respondents, by a human resources representative or a supervisor; and 3) for other University members, by the University official who retains or oversees their participation in University programs or activities. If a prohibited conduct investigation reveals possible misconduct other than prohibited conduct under this policy, the campus Title IX office will forward this information to the campus office, human resources representative, or supervisor

responsible for investigating that possible misconduct. However, amnesty is provided for certain drug and alcohol related offenses that come to light during a prohibited conduct investigation.

Written notice to the parties

Upon receipt of a formal complaint that alleges prohibited conduct in violation of this policy, the campus Title IX office will provide written notice to the parties who are known. The written notice will provide the parties with sufficient time to prepare a response before any initial interview, and will include:

- Notice that a grievance process is being initiated.
- Information about the grievance process.
- Notice of the allegations of prohibited conduct, including the identities of the parties involved in the incident, if known, the alleged prohibited conduct, and the date and location of the alleged prohibited conduct, if known.
- Notice of the decision on whether the reported conduct will be designated as Title IX prohibited conduct, the reasons for this decision, and the parties' right to appeal this decision;
- A statement that the respondent is presumed not responsible for the alleged prohibited conduct and that a decision on responsibility and on disciplinary sanctions, if any, is made at the conclusion of the grievance process.
- Notice that the parties may be accompanied to meetings and hearings in the grievance process by: 1) an advisor of their choice who may be, but is not required to be, an attorney, and who may inspect and review evidence and 2) a support person who cannot be a fact witness in the case.
- Information about applicable supportive measures and advisor resources, and an opportunity to discuss them with the campus Title IX office.
- Notice that this policy prohibits knowingly or intentionally filing a false formal complaint or providing false or misleading information during a grievance process.

If, during the course of an investigation, the campus Title IX office decides to investigate additional allegations of prohibited conduct, the campus Title IX office will provide notice of those additional allegations to the parties whose identities are known.

Investigation process

The nature and scope of an investigation will be determined based on the formal complaint and any additional information gathered during the investigation, and will include the following elements:

- Written notice to the parties
- One or more requested interviews of a complainant, where the complainant will have the opportunity to describe the allegations giving rise to the formal complaint, provide evidence, and identify witnesses.
- One or more requested interviews of a respondent, where the respondent will have the opportunity to respond to the allegations, provide evidence, and identify witnesses.
- Gathering of other evidence, such as through witness interviews, if other evidence exists.
- An equal opportunity for the parties and their advisors to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in the formal complaint
- Provision of a final investigation report to each party, the party's advisor, if any, that fairly summarizes the relevant evidence, provides an analysis of the evidence, and a recommended decision on responsibility.

The campus Title IX office strives to complete investigations within 90 business days. However, depending on the complexity of the investigation, the number of witnesses, the availability of evidence and other factors, some investigations may take additional time. When an investigation will not be completed within 90 business days, the campus Title IX office will notify the parties and provide the reason for the extended timeline in writing.

Post-Investigation Informal Resolution Process

Based on the final investigation report, the parties may be provided with a proposed informal resolution. If both parties agree in writing to the proposed informal resolution, the grievance process ends. If either party does not agree to the proposed informal resolution, the matter will proceed to a hearing or administrative resolution.

Administrative Resolution Process

In all cases except those that involve a student complainant and a non-student employee respondent, the parties will be offered the opportunity to agree to resolve the case after the investigation through an administrative resolution process. In an administrative resolution process, a hearing chair will make the decision on responsibility based on the investigative report, the parties' written responses to the investigative report (if any), and the evidence gathered by the campus Title IX office as part of its investigation of the formal complaint.

Hearing

If there is no post-investigation informal resolution or administrative resolution, the parties will be provided a live hearing. The parties will be permitted to submit a written response to the final investigation report to the hearing panel.

Hearing format. The University may conduct live hearings with all parties physically present in the same geographic location or with any or all parties, witnesses, and other participants appearing virtually, with technology enabling participants to simultaneously see and hear each other. At the request of any party, the parties will be located in separate rooms during the hearing with technology enabling the hearing panel members and parties to simultaneously see and hear the party or the witness answering questions.

Access to evidence at the hearing. The University will make all evidence directly related to the allegations available to the parties at any hearing.

Advisor and support person. Each party may be accompanied to the hearing by one advisor of their choice. Advisors are permitted to make opening and closing statements and conduct direct and cross-examination during the hearing. If a party does not have an advisor present at the hearing, the University will provide that party, free of charge, with an advisor of the University's choice, to conduct cross-examination on behalf of that party. A party's advisor may appear and conduct cross-examination even when the party whom they are advising does not appear. Each party may also be accompanied at the hearing by a support person, who participates in the hearing in a non-speaking capacity. A support person cannot be a fact witness in the case.

Cross-examination. Cross-examination at the live hearing will be conducted directly, orally, and in real time by the party's advisor and never by a party personally. Each party's advisor is permitted to ask the other party and any witnesses all relevant questions.

Failure to submit to cross-examination. If a party or witness does not submit to cross-examination at the live hearing, the hearing panel and Appellate Officer (where applicable) will not rely on any statement of that party or witness in reaching a decision on responsibility. The hearing panel and Appellate Officer (where applicable) will not

draw an inference about the decision on responsibility, if any, based solely on a party's or witness's absence from the live hearing or refusal to answer cross-examination or other questions.

Recording or transcript. The University will create an audio or audiovisual recording, or transcript, of any live hearing and make it available to the parties for inspection and review.

Decision on responsibility and disciplinary sanctions

Both parties will be simultaneously provided with the hearing panel's (or in the case of an administrative resolution, the hearing chair's) written decision on responsibility and the written decision on disciplinary sanctions, if any. Together, these written decisions on responsibility and disciplinary sanctions will constitute the "Written Determination" that may then be appealed by either party.

The Written Determination will include:

- the allegations of prohibited conduct;
- a description of the procedural steps taken by the University from its receipt of the formal complaint through the Written Determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather evidence, and hearings held;
- findings of fact supporting the decisions on responsibility and disciplinary sanctions;
- conclusions regarding the application of this policy to the facts;
- a statement of, and rationale for, the decisions on responsibility and disciplinary sanctions;
- a statement of the decision on whether the University will provide remedies to the complainant; and
- the University's procedures and permissible bases for the parties to appeal the decisions on responsibility and disciplinary sanctions.

If an appeal is not filed, the Written Determination becomes final on the date on which an appeal would no longer be considered.

Informal Resolution Processes

The University may offer informal resolution processes to parties at any time after a formal complaint is filed and before a final decision on responsibility and on disciplinary sanctions is made. Except, the University will not offer informal resolution processes to resolve allegations that an employee engaged in Title IX-based prohibited conduct toward a student.

Before initiating an informal resolution process, the University will provide the parties with a written notice disclosing:

- the allegations in the formal complaint;
- the requirements of the informal resolution process;
- the circumstances under which the informal resolution process precludes the parties from resuming the grievance process arising from the formal complaint;
- the parties' right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint, and
- any privacy-related and recordkeeping-related consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared.

In addition, before initiating an informal resolution process, the University must obtain the parties' voluntary, written consent to the informal resolution process.

Disciplinary Sanctions, Remedies and other Responsive Actions

Responsive action is intended to eliminate prohibited conduct, prevent its recurrence, and promote accountability while supporting the University's educational mission and legal obligations. Responsive action may include disciplinary, rehabilitative (including educational), restorative, and monitoring components.

Possible disciplinary sanctions in cases with student respondents include the following:

- an oral or written warning;
- probation;
- required compliance with work assignments, community service assignments, or other discretionary assignments;
- restitution;
- restriction of privileges;
- University housing suspension or expulsion;
- suspension or expulsion from the University;
- withholding of a diploma or degree; and
- revocation of admission or a degree.

Possible disciplinary sanctions and other responsive actions in cases with employee respondents (including student employees) may include one or a combination of the following:

- coaching or education;
- mentoring;
- changes to work duties or locations;
- monitoring to ensure that prohibited conduct is not occurring;
- probation;
- transfer of position;
- removal of administrative appointment;
- salary reduction;
- demotion;
- oral or written reprimand
- suspension; and
- termination of employment.

For labor-represented employees, the disciplinary sanctions that may be imposed are those set forth in their union contract.

Possible disciplinary sanctions or other responsive actions in cases with third-party respondents may include restrictions on a third-party respondent's: 1) participation in University programs or activities; 2) attendance at University events; or 3) ability to enter campus spaces, among other things.

Remedies

Where a decision has been made that a respondent is responsible for prohibited conduct, the University will provide remedies to a complainant that are designed to restore or preserve the complainant's equal access to the University's education programs and activities. Such remedies may include supportive measures, as well as measures that prevent the respondent from having contact with the complainant, and other measures. The campus Title IX office is responsible for effective implementation of any remedies.

Appeals

Either party may initiate the appeal process.

Appeals are not intended to allow for a second review of the same information provided during the investigation, and the Appellate Officer will not substitute their judgment for that of the hearing panel, or that of the hearing chair in the case of an administrative resolution. Appeals are limited to the grounds set forth below.

- Procedural irregularity that affected the outcome.
- New evidence that was not reasonably available at the time of the Written Determination that could have affected the outcome.
- A sanction that is grossly disproportionate to the offense.
- A decision on responsibility that is not based on substantial information. Substantial information means relevant information that a reasonable person might accept as adequate to support a conclusion. The Appellate Officer must respect the credibility determinations of the hearing panel (or of the hearing chair in the case of an administrative resolution) and must not substitute the Appellate Officer's judgment for that of the hearing panel or chair.
- The Title IX Coordinator, investigator, hearing panel members, and/or University Authority had a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent that affected the outcome.

The Appellate Officer will issue a written decision that 1) affirms, in whole or in part, the decision on responsibility, 2) overturns, in whole or in part, the decision on responsibility, 3) affirms, overturns, or adjusts the decision on disciplinary sanctions, or 4) remands the matter to remedy procedural errors or consider new evidence.

The decision of the Appellate Officer is the final University decision.

Orders for Protection, Harassment Restraining Orders and Enforcement

The University of Minnesota complies with Minnesota law in recognizing Orders for Protection and Harassment Restraining Orders. Any person who obtains an order should provide a copy of the order to UMR.

If a person needs assistance in obtaining an Order for Protection or Harassment Restraining Order, they can contact Olmstead County Victim's Services. University departments that are made aware of an Order of Protection or Harassment Order and need assistance with accommodating the order can contact the Title IX office or designee.

Any person who witnesses a violation of an Order for Protection or Harassment Restraining Orders should immediately call 911 for police response.

Sexual Offender Registration

Level 3 sex offenders are required by law to keep law enforcement agencies apprised of their current residence, employment and school addresses, as well as any changes to those locations. In addition, several of these offenders have demonstrated by their past behavior that they are part of a group who pose the greatest risk to the public when released. This does not mean that they will commit a new crime, just that they are part of a group of persons who might.

State and federal law requires the University of Minnesota Rochester to advise the University community of the release or residence of such predatory sex offenders in our University community. Accordingly, information on predatory sex offenders who have notified the State of Minnesota that they are attending classes or employed at

the University of Minnesota Rochester is available to the University community at the Vice Chancellor for Finance and Campus Resources office. Individuals listed there are not wanted by law enforcement at this time and have served the sentence imposed upon them by the court. The use of this information to threaten, harass, or intimidate such individuals may be a crime and will not be tolerated. Information regarding Level 3 Predatory Offenders is posted on the following website: <https://mn.gov/doc/community-supervision/community-notification/>

Release disciplinary outcome to victims of crimes of violence or non-forcible sex offenses

The University of Minnesota will, upon written request, disclose to the alleged victim of a crime of violence (as that term is defined in Section 16 of Title 18, United States Code), or a non-forcible sex offense (incest or statutory rape), the results of any disciplinary proceeding conducted by the University of Minnesota against a student who is the alleged perpetrator of the offense. If the alleged victim is deceased as a result of such of the offense, the next of kin of the victim is permitted to make the request.

Residential Life Missing Person Policy

The Residential Life Missing Person Policy establishes procedures for the University of Minnesota Rochester response to reports of missing students who reside in University owned housing facilities.

This policy and procedure applies to all UMR students that reside in on-campus housing only. A student may be considered missing if the student's absence from the campus community is suspiciously different from the student's usual pattern of behavior and/or unusual circumstances may have caused the absence.

If a student who lives in on-campus student housing is determined to be missing for 24 hours, UMR will initiate the following procedure within 24 hours of receiving a missing person's report. However, action may be taken sooner than 24 hours of a reported missing student.

Student Designation of Missing Person Contact Information

Students who live in on-campus student housing, regardless of age, may register one or more individuals to be a contact strictly for missing person purposes. This contact information will be kept separate from any general emergency contact information and UMR will not assume that a general emergency contact is also the missing person contact. Missing person contact information will be accessed only by authorized campus officials. Authorized campus officials may disclose this contact information only to law enforcement officials and only for the purpose of missing student investigation. City of Rochester Police will be notified of any missing person whether or not that missing person has designated missing person contact information.

The missing person contact information will remain in effect throughout the duration of the student's residence in University housing. The student is encouraged to update this information when appropriate and may do so at any time. Missing person contact information can be viewed and updated by contacting the Resident Life Director.

For any student under 18 years of age and not emancipated, UMR must notify a custodial parent or guardian within 24 hours of the determination that the student is missing. This is in addition to notifying any additional contact person designated by the student.

To Report a Missing Student

Any individual on campus who has information about a UMR student that may be missing must notify one of the following UMR staff members:

Resident Life Director 507-258-8028

*AVC for Student Success,
Engagement and Equity* 507-258-8106

If any UMR employee other than those previously mentioned receives a report of a potential missing student, they are to advise the reporter to contact one of the above individuals directly; in addition, that employee receiving the report will directly contact one of the above individuals.

Official notification procedures for missing persons:

If a report of a possible missing person is made to the above staff members, the staff member will:

- Interview the person making the initial missing person report to gain information.
- Inform the AVCSSEE.
- Conduct a health and wellness check on the suspected missing person.
- Attempt to make contact with the missing person via any means available.
- Identify other individuals who may be aware of the missing person's whereabouts (e.g. roommates, friends, classmates).
- Check attendance at class or at on-campus employment.
- Notify City of Rochester Police Department
- Contact missing person's emergency contact if applicable. If the student is under 18 years of age and not emancipated, custodial parents or guardian will be contacted in addition to any missing person's contact.

If a student has registered a contact person, UMR will notify that contact person no later than 24 hours after it has been officially determined that the student is missing. If a student registers multiple contact persons and the first person contacted confirms that the student is not missing, UMR must contact each additional contact person in turn, unless the student in question is contacted by UMR or contacts UMR directly. This process is important in verifying that the missing student is confirmed to be safe.

Housing Regulations Regarding Portable Electrical Appliances, Smoking, and Open Flames

Electrical Appliances

Air conditioners and personal refrigerators are prohibited in UMR housing facilities. Electrical appliances must be in good working order and UL approved. The lack of an operator present when heat-generating devices are in use is prohibited.

Cooking

Cooking is permitted only in University-designated kitchen areas. The lack of an operator present when heat-generating devices are in use is prohibited.

Smoking

To create a healthier, cleaner, and more inclusive environment for everyone, smoking any substance or creating smoke is not permitted in resident rooms or apartments. Smoking any substance or creating smoke is also prohibited on apartment patios, apartment balconies, and/or public areas within residence halls and apartments. This includes electronic cigarettes, vaporizers and tobacco. Smoking and tobacco use is not allowed on the University of Minnesota campus.

Hookahs or any smoking paraphernalia that has the potential for an open flame are not allowed in the residence halls or apartment communities.

Open Flames

For the safety of all students living in the halls, it is prohibited to have open flames or other materials that constitute fire hazards on University housing property including candles, candle warmers, incense, or other materials (such as live fresh cut evergreen trees, and wreaths). Any candles or incense found may be confiscated or destroyed.

Housing and Residence life staff will not store these items for you. Motorized vehicles (e.g., mopeds, motorcycles, etc.) may not be brought through or stored within the residence halls/apartments or on apartment patios and balconies

Prohibited Lighting

Due to hazardous materials in various lighting devices, and the potential for fire, and chemical safety hazards, the following items are not allowed: halogen lamps, torchiere lamps, neon lighting, black lights, strobe lights, and lava lamps. Lighting fixtures and devices must be UL listed, in good working condition per original manufacturing, and of no greater than 75 watts.

Evacuation in case of a fire

In the event of a building alarm, fire departments cannot begin their job until everyone is out of the building. Failing to leave the building puts others at risk. In compliance with Minnesota State Fire Code and state law, everyone is required to leave the building in the event of a building alarm.

- Upon activation of a fire alarm, immediately proceed to the nearest, safest exit
- Before opening doors, feel the door; if it is hot do not proceed through the door. If the door is cool, open the door slowly and proceed to nearest, safest exit
- If on upper floors of a building, do not use elevators, proceed down stairwells to exit, if heavy smoke or fumes are present, use an alternate exit route
- Exit the building and move a safe distance away from the building
- In locations managed by Housing & Residential Life, Housing staff will assist exiting residents to a nearby safe location
- Do not re-enter the building for any reason. Emergency Responders or Residential Life Staff will notify residents if and when it is safe to return to the building

Steps to Be Taken in Case of Fire

In a fire emergency:

- Pull the fire alarm if able.
- Call 9-911.
- Remain calm and act quickly.
- Wear protective clothing such as a coat and shoes, and carry a damp towel for use in heavy smoke.
- Close your room door and windows.
- Walk in an orderly manner to the nearest exit. Never use an elevator.
- Move a safe distance away from the building and out of the way of fire department personnel.
- Remain outside until you are told to return by the staff.
- If you think there is a fire in the hallway, feel the door before you open it:
- If the door does not feel hot, open it slightly, holding your head away and brace the door with your foot.
- Put your hand across the opening to test the heat of the air.
- If the door is hot and the hallway unsafe, plug any opening or cracks through which smoke may enter your room using wet towels, sheets, blankets, etc.
- If smoke does enter the room, open the window for ventilation; break it if sealed.
- DO NOT JUMP.
- Make your presence known.
- Wait for rescue

In case of minor fire:

- Pull the fire alarm if able.
- Call 9-911.
- Use a fire extinguisher located in the hallway cabinets or a blanket to smother the fire.
- Never risk your personal safety!

Fire Safety Education & Training

The Residential Life Director, all Resident Assistants, and professional staff in the housing facility are trained on evacuation procedures in a fire emergency and directions are contained in the RA handbook.
