## Office of Residential Life Housing Requirement for Students in the Bachelor of Science in Health Professions Program (BSHP)

### **UMR's Campus Residency Requirement**

All first and second year students are required to live in UMR approved on-campus housing, unless a student meets an exemption criteria and receives approval from Residential Life. The full requirement can be found [here](#).

### **Housing Requirements for BSHP Students**

The following requirements have been established specifically for students in the Bachelor of Science in Health Professions program due to their unique schedule and needs.

All BSHP students (those required to live on-campus and those who are not) have the option to live in any of UMR's three residence halls: Student Life Center, 318 Commons, or Residence at Discovery Square.

### **Definitions**

BSHP student: a student admitted to one of the four BSHP tracks (Echocardiography, Radiography, Sonography, Respiratory Care) within the Bachelor of Science in Health Professions, and who will be starting their academic program experience at the Mayo Clinic School of Health Sciences.

- This does not include Early Assurance Respiratory Care students.
- This does not include BSHP students taking prerequisite courses towards their BSHP application.

### **Housing Process**

BSHP students indicate their residence hall preferences on the housing application.

BSHP students who need to move-in earlier than UMR's designated move-in weekend should contact Residential Life at [rhousing@umn.edu](mailto:rhousing@umn.edu) to create a plan. Students approved for an early move-in will be charged \$30/day up until UMR's designated move-in weekend.

### **Questions?**

Please contact the Health Professions Program Coordinator or the Office of Residential Life at [rhousing@umn.edu](mailto:rhousing@umn.edu).
